

PLAN OF A CAMPAIGN

In Case War Is Declared Between Transvaal and England.

BOERS TO BE AGGRESSORS.

After Invading Kimberley With a Force of Twenty Thousand Men, General Joubert Will Advance in Haste on Capetown.

London, June 19.—The St. James Gazette claims to have received from an absolutely reliable source at Pretoria, capital of the Transvaal, the plan of a campaign which will be followed by General Joubert, commander-in-chief of the Boers, in the event of war between the Transvaal and Great Britain.

General Joubert's force, it appears, will consist of 20,000 men armed with Mauser rifles, in addition to 46 quick-firing guns and 1,000 artillerymen, most of them drawn from the German and Dutch armies. With these troops and help expected from the Orange Free state, Joubert expects to take the offensive immediately after the declaration of war, enter the Orange Free state and march on Kimberley, the British diamond mining center in West Griqualand which forms four of the 70 divisions of Cape Colony.

Kimberley is about 100 miles northwest of Bloemfontein. In his march on Kimberley, Joubert will use the railroad as far as available, expects to capture the town with slight loss and blow up the De Beers diamond mine.

Simultaneous. It is added, the railroad from Cape Town to Bulawayo will be destroyed by Boer sympathizers and agents in Cape Colony, who will also destroy the Port Elizabeth-Pretoria line south of Bloemfontein to prevent British troops from using it.

Finally, immediately after Kimberley is captured, General Joubert will advance on Capetown, the capital of Cape Colony, through the western provinces, where the Dutch predominate and are expected to join the Boers. Joubert calculates that he will be master of Capetown after the night of the declaration of war and that he will then be able to dictate terms of peace.

Not Correct Version.

London, June 19.—The officials of the colonial office were shown the dispatch from Washington, saying that Canada had served notice on Great Britain that she must choose between the United States and her northwestern possessions in the settlement of the Alaskan boundary dispute. They declared that the story is both wrong in substance and fact and that it can be reaffirmed that a modus vivendi was reached early last week. The arrangement, which is a verbal one, deals with the question on broad lines. One or two minor details are still under discussion and when they are settled, a final arrangement will be drawn up.

Offer of a Regiment.

Washington, June 19.—The following telegram was received at the war department from California senators, Messrs. White and Perkins: "Southern California supports administration in its efforts to suppress the Philippine insurrection and tenders the president for immediate service a well organized and thoroughly disciplined regiment of infantry. Officers and men ready to depart as soon as the necessary field equipment can be furnished."

After some argument between counsel for the defense and the district attorney, the trial was set for Monday, June 26.

Early in the morning men and women set to work greasing the tracks at the corner of Pearl street and Clark avenue, at the corner of Scranton avenue and Clark avenue, and also at the corner of Jennings avenue and Clarke avenue.

The tracks were so well greased with soap, oil and other substances that the operation of cars was effectually prevented.

The company opened two new lines, Central and Scoville avenue, running cars at six-minute intervals. There has been no rioting.

James Marks Sentenced.

Port Huron, Mich., June 19.—James Marks was sentenced to the state prison at Jackson for life. His crime was the murder of his 16-year-old wife, to whom he had been married but a few days. Jennie Mussmann, who is alleged to have been with Marks the night of the murder, is held in custody. Marks married the girl simply to avoid criminal prosecution for having betrayed her. He was angry because she would not or could not do him some property which was in the hands of the trustees.

EXERCISES AT SMITH.

Visit of President and Party to Classic Shades of a College.

SEES CLASS IVY PLANTED.

The Cause of Higher Education For Women Is Given an Impetus by Presence of the Chief Executive.

Northampton, Mass., June 19.—Northampton was dressed in its best to welcome the president of the United States upon his arrival from Holyoke.

Considerable effort at general decoration was made and the public buildings, together with many residences, were gay with bunting and flags. From every trolley pole, along the entire route of the parade, were suspended large flags while every few yards were long streamers running to each side and caught up in the center over the trolley wire, forming a long, bright archway.

The president's train arrived on time. Mr. William Whiting, the president's host at Holyoke, and Congressmen Gillette and Lawrence came up from Holyoke with the party.

A rousing cheer went up as the train came to a stop and President McKinley stepped down from the platform to enter the waiting carriage. This welcome was repeated at intervals, and the president and Mrs. McKinley were constantly engaged in acknowledging the cheers.

The presidential train stopped at a point where the carriages could be entered from the car platform.

A reception committee, representing the city, greeted the party and the local militia company with the Grand Army presented arms. The procession was then formed and moved through the main street to the grounds of Smith college.

At the station here Mayor John L. Mather and Hon. A. L. Williston, of this city, Hon. W. B. Plunkett, of Adams, Miss Helen McKinley, sister of the president, Miss Ella Buckingham, of Canton, O., and Mrs. G. K. Glidden, of Boston, were waiting to join the visitors.

When the chapel was reached the presidential party were given seats upon the platform, while the seniors occupied the front row of chairs in the Auditorium.

The exercises were opened with singing and prayer, and an address was made by President Seeley, of the college. He spoke of the triumph in the struggle to remove the almost universal and unfair prejudice against the higher education of women. He added that he considered the visit of the chief executive was the fitting and crowning event of the last year of the nineteenth century. The speaker, on behalf of the college, expressed admiration for the national administration and the determination of the president to give the blessings of free and enlightened government to all the people over whom we may be called to rule.

He then requested that the president be given the respectful and graceful salutation of the assembly and stated that at the request of the president he would not call upon him to make an address. The exercises closed with the singing of "America."

The ladies were taken to the residence of Captain Harry L. Williams, while the gentlemen entered the chapel. At the close of the exercises the president watched the planting of the class ivy.

The party were then driven to the residence of Captain Williams, where a beautiful loving cup was presented to Mrs. McKinley by Bethesda chapel, Order of the Eastern Star, of which organization she is a member.

Mrs. General L. C. Hustings made the presentation speech to which Mrs. McKinley responded very briefly, expressing her pleasure and appreciation of the gift.

After a light lunch the entire party were taken for a short drive about the town, during the course of which the president reviewed the children, who were massed at a point along the route.

As the presidential party returned from the drive they were met by the military company and escorted to the station. As the train moved away, three hearty cheers were given by the spectators. The weather was delightful, adding not a little to the pleasures of the occasion.

All the grand lodge officers have arrived and are making the Southern hotel their quarters. Every train brings its quota of visiting Elks and at noon it was estimated that 2,000 had already arrived. It is expected that at least 6,000 Elks will be here. Grand Exalted Ruler John Galvin, of Cincinnati, will not stand for re-election. There are two active candidates for his position, Judge B. M. There will be no further parleying with Aguinaldo and his followers and no let-up in the aggressive campaign which General Otis is conducting."

Portland, Ore., June 19.—An east-bound Northern Pacific freight train collided with an excursion train returning from Astoria, one mile east of Linton station. ROBBERS' BOLD WORK

Safe of Fairmount Park Transportation Company Looted.

TWO DAYS' EARNINGS TAKEN

Half Dozen Employees Are Bound by Wire by a Gang of Masked Men and Then the Strong Box Is Blown Open.

Philadelphia, June 19.—A gang of masked robbers, probably 10 in number, at sunrise raided the receiving office of the Fairmount Park Transportation company at Belmont in Fairmount park and after holding up the receiver and five other employees of the railway, blew open the safe securing \$4,000, the company's receipts for two days.

Frank Leavan, receiver, Frank Watson and Henry B. Whitehouse, conductors, James Cavanaugh, fireman of the power house, Philip Eaves, electrician, and William Cadmus, laborer, were bound hand and foot with wire.

In addition to the men who actually committed the robbery, the others operated miles away from the scene by destroying telegraph and telephone wires connecting with the trolley company's main office.

The Fairmount Park Transportation company operates various lines of trolley cars through the park for pleasure riders. The traffic being unusually heavy on Saturdays and Sundays, the robbers evidently decided upon this Monday as being a good time to make a big haul.

The employees were all in the office when the burglars made their appearance. Each intruder was armed with two revolvers and they took the employees completely by surprise.

It was the work of a few moments for the robbers to pinion the workmen who were rolled over to one side of the room with their faces to the wall. Ten minutes later the safe had been cracked and the gang disappeared.

The entire city detective force is on the case, but the cracksmen left no clue.

Frank Levan, the night receiver, one of the men gagged and bound by the robbers, told this story of his experience:

"While I was standing at the office door I heard footsteps in the rear. Turning, I saw two men with masks on their faces. They had two big revolvers and took me into the conductors' room and tied my hands and feet with wire and laid me on the floor with my face to the wall. In the room I saw Whitehouse was also being bound and gagged.

"When we were laid on the floor a man was detailed to guard us. In a few minutes in came another victim, who, I think, was Watson, a conductor, and he went through the same thing. Then two more came in and were bound. The burglars worked quietly. They whispered whenever they said anything to their number. It only took them 10 minutes to blow the safe.

"The guards frequently threatened to shoot us if we made the least outcry or motion. I think they must have had a wagon to take away the cash, because it was very heavy to get away with.

"Shortly after the money was taken our guards left. Finally Philip Eaves, the electrician, got himself unloosened and he then unloosed us.

"I tried to reach the city hall by wire, but the wires of both telephones had been cut and I started to run in the pitch dark across the country to the Belmont pumping station where I gave the alarm and they telephoned and informed the detectives."

"THE MOTHER OF ALL TRUSTS."

The mother of all trusts is the customs tariff bill. The existing bill and the preceding one have been the occasion for the formation of all the large trusts, with very few exceptions, inasmuch as they provide for an inordinate protection to all the interests of the country, sugar excepted. Economic advantages incident to the consolidation of large interests in the same line of business are a great incentive to their formation, but these bear a very insignificant proportion to the advantages granted in the way of protection under the customs tariff. There probably is not an industry that requires a protection of more than 10 per cent. ad valorem, and it is to obtain what is provided over such percentage in the tariff that leads to the formation of what are commonly spoken of as "trusts." With a protection to an industry not exceeding 10 per cent. all menace of trusts to the community would cease.—Henry O. Havemeyer's testimony before the Industrial Commission.

BY THEIR FRUITS.

The Trusts Viewed From the Standpoint of the Commercial Travelers.

[New York World.]

P. E. Dowe, President of the Commercial Travelers' Association, testified before the Industrial Commission yesterday—

That the trusts have thrown out of employment more than 33,000 salesmen and have reduced the salaries of more than 25,000.

That they have thus "saved" upward of \$14,000,000 a year, of which \$60,000,000 comes from salaries, \$27,000,000 from the railroads and \$28,000,000 from hotels.

That the public "benefits" from these "economies" is a general rise of prices—iron pipe, 100 per cent; ironware, 33 per cent; furniture, 30 per cent; rubber goods, 14 per cent; window glass, 100 per cent; common soap, 25 to 50 cents a box &c.

Mr. Dowe has obtained his figures from the most reliable sources. His presentation of facts is therefore valuable.

Part of his statement—the figures of reductions in cost of production—are arguments for the trust. But, on the other hand, what of the rises in the prices of goods, what of the closing of the avenues of industry to competition?

At West Union, O., the County Commissioners have voted to dismiss the action of the board against Dr. L. A. Grimes, for the condemnation of lands for approaches to the proposed \$10,000 bridge over Brush Creek. Dr. Grimes has beaten the commissioners in several courts, and the court costs alone amount to \$1,044, which the commissioners will have to pay. The board was even made to pay Dr. Grimes' attorney fees of \$300. The board's attorney fees amount to near \$1,000.

MONDAY'S MEETING.

It Was Lively and Interesting While It Lasted.

Resolutions Adopted Denouncing Lawlessness and Steps Taken to Organize a Law and Order League.

The mass meeting at the court house Monday afternoon to consider the turnpike question and the "guard law" was exceedingly lively and interesting at several stages of the proceedings.

The attendance was not as large as had been expected, but it was composed principally of substantial farmers of the county.

Mr. L. W. Galbraith assumed the chair at 1:30 o'clock and stated that he had been requested to call the meeting to order and outline briefly its object. In doing so he reviewed the condition of affairs in which the county found itself, referring to the \$60,000 bond proposition voted last fall, which the people of the county had been told, both by the free turnpike advocates and certain turnpike owners, would settle the question once and for all. But the companies refused to accept the \$60,000, and the Fiscal Court was in a position under the stipulations of the bond proposition, to offer no more. With this condition confronting the people, the tollgates were being guarded at a daily expense of \$76. He and others resented the aspersions cast upon the county by the appointment of guards. They did not believe guards were necessary, and they suggested the organization of a law and order league, who would guard the gates if necessary, free of cost, and would hunt down and punish any raiders. Mr. Galbraith closed by calling for nominations for permanent Chairman.

At this stage Mr. A. M. J. Cochran arose and stated that he thought they were taking the wrong steps if they wished to keep down lawlessness, that their actions were calculated to arouse and inflame the people and thus incite the very thing they sought to avoid. Mr. Cochran wanted to know who had called the meeting, and was told by Mr. Galbraith that Mr. John B. Peters and Mr. W. H. Rice were among those who issued the call.

Mr. Peters was ready to answer for himself and demonstrated that he was able to meet all comers. He had not spoken very long before Mr. Cochran beat a hasty retreat. Judge Whitaker was then elected Chairman and on assuming the chair delivered an address along the line of what had already been said. He asserted that there was no danger whatever from raiders; that the people of the county were law abiding, and he resented the aspersions cast upon the people by the appointment of guards. He said five men, with loaded guns, were guarding a gate in his neighborhood, one of the most peaceful in the county, and whose people would get up at any hour of the night to protect any one's property.

Mr. Geo. W. Sulser had been chosen Secretary, and Mr. Peters then offered the following resolution: Resolved, That we as citizens of Mason County protest against the aspersions gratuitously cast upon the fair name of our county in calling for guards to protect the property of turnpike corporations within our borders. We do most indignantly protest against the assumption that the people of Mason County are so lawless that they must be restrained from acts of violence by armed guards. The history of the free turnpike movement sufficiently proves that our county has been consistently law abiding. No tollgate raids have disgraced our people, and we are unwilling to submit to the entirely unsupported assumption that they will ever array themselves against the law in this or any other matter, therefore, be it

Resolved, That a Law and Order League of Mason County be formed to act as may be necessary in the premises.

The resolution was adopted, and then the following, also offered by Mr. Peters, was adopted: CONSTITUTION OF THE LAW AND ORDER LEAGUE OF MASON COUNTY. We, the undersigned, hereby subscribe ourselves as members of the Law and Order League of Mason County, pledging to it our loyal support. The purpose of the League is, if it be necessary, to enforce obedience to law, and especially to prevent any violation of the Martin law; and to protect the property of the turnpike corporations and all other persons of Mason County from injury, and to secure to said corporation a full and free enjoyment of all of their rights under their respective charters; and also to protect the county from the imposition and expense of unnecessary guards for turnpike property. The officers of said league shall be a President, Vice President and Secretary, and an executive

committee of five members; and there shall also be a committee of three members in each precinct of the county which shall have full control of all local business of the league and shall report to its executive committee. The President or executive committee may call a meeting of the league or a meeting of its officers. JOHN B. PETERS.

During the proceedings, Mr. A. R. Glascock got the floor and expressed his disapproval of the action contemplated. He said that was no way to settle the matter. He advised that the plikes be bought at once and end the question once and for all. The way things were going taxes would be doubled, and there would be nothing to show for the expenditure.

Mr. Robert M. Marshall had also spoken against that section of the resolution that stated there had been no tollgates raided in Mason County. He said he was President of a road that had a gate raided, and that the raiders had threatened to hang him. He let the raiders know, however, that if there was to be any hanging he would be on hand and have something to say about it, and he had not been molested further. Mr. Marshall, however, said he endorsed Mr. Peters' remarks.

On the adoption of the Constitution, those present who were willing to become members of the league were asked to come forward and sign the Constitution. No one responded. On motion, Messrs. John B. Peters, S. N. Robinson, Richard Lindsay and W. J. Rees were appointed a Committee on Organization, with power to act, and, on further motion of Dr. Reed the Chair was authorized to appoint a committee of one in each voting precinct to solicit members for the league.

The crowd then dispersed and the meeting stood adjourned. The Committee on Organization of the Law and Order League afterwards met and elected the following: President—J. Paxton Marshall. Vice President—John E. Wells. Secretary—Dr. John A. Reed. Executive Committee—John B. Peters, W. J. Rees, Joel Laytham, S. N. Robinson and Fred Zweigart.

The following committee was appointed to circulate petitions and secure members for the league. Maysville No. 1—John C. Adamson. Maysville No. 2—W. H. Means. Maysville No. 3—Wesley Viceroy. In some Swiss valleys the inhabitants are all afflicted with goitre or "thick neck." Instead of regarding this as a deformity they seem to think it a natural feature of physical development, and tourists passing through the valleys are sometimes jeered by the glib and glibly swelled, because they are with out this offensive swelling. Thus a form of disease may become so common that it is regarded as a natural and necessary condition of life. It is so, to a large extent, with what are called diseases of women. Every woman suffers more or less from irregularity, ulceration, debilitating drains, or female weakness, and this suffering is so common and so universal that many women accept it as a condition natural and necessary to their sex. But it is a condition as unnatural as it is unnecessary. The use of Dr. Pierce's Favorite Prescription strengthens the delicate womanly organs and regulates the womanly functions, so that woman is practically delivered from the pain and misery which eats up ten years of her life—between the ages of fifteen and forty-five. "Favorite Prescription" makes weak women strong and sick women well.
